## **RE: Alberta's Paint Recycling Program – Supplier Registration**

Alberta launched its new Paint Recycling Program April 1, 2008.

As per the legislation governing the paint recycling program, a "supplier" is defined as:

- a manufacturer of paint who supplies the manufacturer's own brand of paint to a retailer, or an end user, in Alberta;
- a marketer who supplies paint to a retailer, or an end user, in Alberta, where the paint was manufactured for the marketer by another person and the marketer owns the brand or is the licensee of the brand;
- a wholesaler, including a retail distributor, who supplies paint to a retailer, or an end user, in Alberta;
- a retailer who supplies to the end user paint that the retailer has imported into Alberta;
- any other supplier of paint or paint containers in or into Alberta.

A supplier is required to register with the Alberta Recycling Management Authority (Alberta Recycling) – which will be operating as Paint Recycling Alberta (PRA). Alberta Recycling Management Authority is the organization delegated by the Government of Alberta to manage the Program.

**Your organization has been identified as a potential supplier affected by this Regulation.**

We ask that you promptly review all materials, complete and **sign** the registration application form and enclose it along with all items on the following checklist:

- Copy of your certificate of incorporation (if your organization is incorporated)
- Copy of your business license (if you are not incorporated)
- Copy of list of directors of the company
- Void cheque

**Please do not fax the application. The original is required.** Upon receipt of all the above noted items, you will receive your Advance Disposal Surcharge (ADS) package with a PRA registration certificate.

Please do not hesitate to contact the PRA accounting department if you have any questions, (780) 990-1111 or toll free 1-888-999-8762 (toll free).

Sincerely,

**ALBERTA RECYCLING MANAGEMENT AUTHORITY (Alberta Recycling)**
